EDUCATION

Kenzie Academy -- Indianapolis, IN

Full Stack Software Engineering   *Aug 2020*

3 out of 35 students cohort to successfully complete and graduate from the program where I logged 2500+ hours of coding, learning full-stack development skills ln javascript, React, Python, Django... and completed 40+ web Apps.
As a developer I am fully capable of accomplishing the following:

- Successfully design, and develop live-use web applications
- Write tests and perform code reviews in a dynamic, fast-paced environment.
- Work closely with highly productive teammates to deliver projects on time
- Learn how to learn and find answers

California University Of PA -- California, PA

Bachelor of Science in Multidisciplinary Studies   *May 2018*

EXPERIENCE

Kenzie Academy -- Indianapolis, IN
